

Earning With Services by Amazon

Gail Buckley
www.PLRContentSource.com

Many people don't even realize earning with services is a possibility with Amazon! You can actually sell your services right through their site. You can take advantage of the incredible leverage and reach Amazon has to start or further your business.

This is the perfect opportunity. It doesn't matter whether you want to earn a little extra spare cash or if you want to turn this into a full-time business, this is for you if you're already a service provider or can provide any of the services Amazon lists in the examples. Read through this guide and see—you never know what will strike you—especially if you're looking to earn surefire money relatively quickly.

What exactly can you sell as an Amazon service provider? There are many opportunities. Keep in mind that one of Amazon's main goals is to make sure they have it all when it comes to what their customers need and want.

Since Amazon sells just about everything under the sun, this sometimes requires some real elbow grease. Amazon needs and wants to hire someone—or give their customers the ability to hire someone—just like you—to fulfill this need.

Amazon gives the example of being a pro who offers assembly, house cleaning, handyman work, electricians, and so on.

Amazon actually has a Selling Services app these days. This app allows you to see new service jobs you can help provide in your local area.

There really are some fantastic benefits that come along with the Services by Amazon opportunity. For one thing, there are no startup fees for use. You don't have to pay anything to get started with this opportunity, in

fact. You don't have to pay any advertising fees or subscription fees or anything at all when you're first getting started.

Amazon makes it clear that one of the greatest benefits of going with Services by Amazon is that you don't have to chase leads. As a service provider, you might find right now that a lot of your time is spent trying to find customers in the first place.

That can be a thing of the past because Amazon can bring leads right to you. This can be a huge relief and help you earn more money because you can spend time actually earning the money instead of chasing the money.

The problem many service providers run into is that there's a lot of competition out there. This can be really frustrating when you're trying to land clients and earn money. Services by Amazon aims to make this problem go away for you because they only choose the best providers—like you.

This is an “invite only” opportunity. They want you, as a service provider, to know that you'll be competing with just the best in your area. This cuts down on your competition and helps you land more jobs.

As you know, people tend to buy from those they know, like, and trust. That can be difficult if you're just getting started or if you aren't savvy with marketing yourself. But when you go with the Services by Amazon opportunity, you get to leverage the trust of Amazon. This can go a long way toward helping you land more jobs and grow your business much more quickly.

Do you offer any of these services? If so, give this business option a try.

To get started, simply go to this address to apply:

<https://services.Amazon.com/selling-services/home.htm>

After you've signed up and been accepted (remember, it's invite only), customers can easily find and purchase your services while they're shopping on Amazon.com.

Your services will show up on Amazon's website when customers are browsing and buying related products.

You will receive jobs when customers order your prepackaged services. You can also receive service requests based on people's individual needs. You will come up with an estimate and submit your estimate to the customer.

Then, you will do the service for the customer and Amazon will pay you. Amazon has purposely made this a very simple process. Many service providers have found this to be an extremely easy process and a great way to grow their business.

Again, there are no sign-up fees, no subscription fees, and no lead fees. The way Amazon gets paid is through a revenue share. You'll get paid once you've completed jobs and you'll get paid directly through Amazon. Amazon will share in that revenue based on the service type and the final service price.

Amazon offers three different options as far as this breakdown:

1. **Prepackaged services** – these are services with defined scope that allow customers to purchase based on price estimates. This might be something like mounting the TV to the wall.
2. **Custom services** – these are services that don't have a defined scope. These projects require custom quotes. An example that Amazon gives is completing the building of a deck.
3. **Recurring services** – you can set up services to be completed on a recurring schedule. This might be something like house cleaning or cleaning a pool that will need to be done over and over again.

Depending on the service, the fee Amazon takes might be anywhere from 10% to 20%.

Step One

To go ahead and get started, apply at this address:

<https://services.Amazon.com/selling-services/home.htm>

If Amazon approves your application, you will receive an email that will allow you to activate your Services by Amazon account.

Step Two

You will then register your account via the activation URL. Amazon will then run a background check. They do this on everyone to ensure that their customers/your customers stay safe. They run business and technician background checks.

Step Three

Now, you will set up your account in more detail. This includes selecting the local areas you cover and the services you want to offer.

Step Four

Now that you're up and running, you can start to get jobs. You can work as much or as little as you want to. This is a fantastic opportunity and you should find that this brings you more income with less effort.

Get Started With Services by Amazon

If you're a service provider, then you're probably really excited about this opportunity. Amazon allows you to advertise your service right on their website. This cuts down on the time you have to spend looking for leads and helps you focus on earning money and servicing your customers. This is a fantastic way to earn part or full time income.

Go ahead and apply now if you think this opportunity is right for you. Once you're accepted, you can start earning and change your life with Services by Amazon.
